

Campus ID Policy

- Students, faculty and staff are required to display your Detroit Mercy ID card while on campus.
- Following University Policy can help you to quickly ID people hanging around who are not part of our community.

We would rather have multiple calls than none at all. When in doubt call DPS to check it out.

Department of Public Safety Patrol

University of Detroit Mercy Public Safety Department has many of the same duties and responsibilities as your municipal police force, in addition to campus arrest authority.

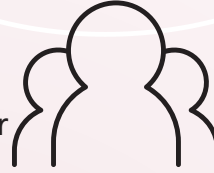

Public safety is responsible for enforcing laws of the state and local ordinances on property owned by Detroit Mercy.

If an individual breaks the law, we may arrest them. Since we also enforce parking laws on campus, individuals parking or driving in violation may be ticketed.

Services

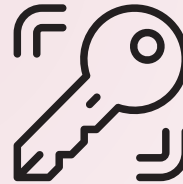

ESCORTS — Can't use the buddy system? Call **313-993-1234** for an officer to accompany you to a parking lot or nearby location. Escort service is available to students and employees during the evening hours.

SAFETY FORUMS — It is our philosophy that a well-informed community promotes good decisions and helps us to maintain a safe environment. Public Safety will offer safety forums throughout the year to keep you "safety fit." Look for awareness information in September.

PREVENTION — Remember these safety tips:

- Lock your room or office doors before you leave.
- Keep valuables secured; most thefts occur from unlocked doors and unattended property.
- Always report your concerns.
- Don't loan your keys or ID card to others.

How can I stay informed about campus safety information?

The Department of Public Safety makes safety information available on our website at udmercy.edu/publicsafety. The website provides information on crime prevention measures, safety practices, emergency readiness, campus services and more.

If you have a question email us at publicsafety@udmercy.edu

RAVE
Mass Notification System
Register for University of Detroit Mercy emergency communications and be among the first to receive

alerts on class cancellations or other emergency notices via text message, voice and email.
