Department of Public Safety Patrol

We would like each of you to know that much like your municipal police department the University of Detroit Mercy Public Safety Department has many of the same duties and responsibilities in addition to campus arrest authority.

Public safety is responsible for enforcing laws of the state and local ordinances on property owned by the University of Detroit Mercy. If an individual breaks the law, we may arrest them. Since we also enforce parking laws on campus, individuals parking or driving in violation may be ticketed.
