TIP

To make sure your television is receiving all of the available channels, it is recommended that you run the Auto-program feature when you turn on your TV for the first time.

What should I do if I am having a problem with the cable TV signal?

1. Verify the coax cable is good by testing it at another location
 2. Verify the tuner has been programmed properly by ensuring the TV is set to cable mode and will scan through the channels
 3. Verify the TV works by trying it in another location
 4. Checking all other channels before reporting a bad channel
- Please report any unresolved issues by submitting a ticket to the Help Desk at
