

Annual Assessment Report for Academic Programs

The University Assessment Team advocates for the enhancement of student learning through purposeful, meaningful, and feasible student-outcomes assessment practices. The Assessment Team seeks to collaborate with programs, departments, and units to ensure that effective assessment of student learning occurs across the University. To assist in meeting this goal, the Team requests that you complete this Annual Assessment Report form to document student learning in your program. A PDF version of this completed form will be posted to the Academic Affairs Assessment website. Please note that this Annual Assessment Report form should only be completed after you have an Assessment Plan for Academic Programs forms on file with the University Assessment Team. The plan is completed once and only updated when revisions have been made to components of the plan.

1. Degree Level and Program Name: BA Economics

2. College/School: College of Liberal Arts & Education

3. Assessment Overview - Briefly share how student learning outcomes assessment is conducted within your program/department (e.g. number of outcomes, examples of assignments used, and frequency of assessment).

The BA Economics program has three student learning outcomes, with one outcome assessed each year. Faculty assess student learning outcomes using direct measures from embedded assignments (e.g. homework, exams, quizzes, and projects using rubrics).

4. Student Learning Outcomes - Which student learning outcome(s) from the assessment plan filed with the University Assessment Team is/are being reported on in this report? Include the corresponding benchmark(s) for each outcome.

For this academic year, we are assessing Learning outcome #3: Understand and communicate competing economic theories. The benchmark is that students demonstrate competency in ECN3050 in all course requirements such as homework/quizzes/exams/projects with a grade of at least a C

5. Institutional Outcomes - For which institutional outcome(s) do the reported student learning outcome(s) align?

SLO Outcome Alignment	Institutional Outcome
Yes	I. Jesuit & Mercy Values
Yes	II. Diversity & Cultural Awareness
Yes	III. Critical Thinking & Problem Solving
Yes	IV. Communication
Yes	V. Professionalism
Yes	VI. Lifelong Learning

6. Assessment Period: Select the academic year for which you are reporting results (i.e. when data were collected):

2021-2022

7. Results, Planned Actions, and/or Actions Taken -Briefly summarize the assessment results, how they relate to benchmark(s), and how you are using them to enhance student learning and improve program quality.

Approximately 90% of the students reached the benchmark of at least the grade of a C on homework/quizzes/exams/projects in ECN3050. Students demonstrated high levels on both understanding competing economic theories and applying qualitative methodologies on economic problems in the context of U.S. and Global economic issues. The department does not feel there is a need for a substantial revision of the assessment tools, instruction, materials or projects at this time.
